PROFESSIONAL SUMMARY

Engineering in Information Technologies student with training in IT support, Windows and Linux systems, networking, advanced Excel and databases. Cisco-certified in IT Support and Microsoft-certified Excel Expert. Seeking to join as an IT Intern, contributing problem-solving skills, continuous learning and teamwork in a technological, industrial and multicultural environment.

TECHNICAL SKILLS

Support & infrastructure: hardware and software troubleshooting; installation and configuration; on-site and remote support; Windows; Linux; SSH; virtualization.

Networking & security: networking fundamentals; IPv4; connectivity; network security; basic vulnerability assessment.

Data & productivity: Excel Expert (formulas, pivot tables, macros and conditional formatting); Word; PowerPoint.

Development & databases: Java; C/C++; PHP; JavaScript; HTML5/CSS3; MySQL; PostgreSQL/Supabase; SQL; JDBC.

SOFT SKILLS

Assertive communication – Problem solving – Teamwork – Adaptability - Proactivity

TECHNICAL PROJECTS

AppealForge — AI-powered clinical appeals system (Impact Forge Hackathon 2026) | Team of 4 | August 2026

- Contributed to frontend development (TypeScript/React) and to the project's technical documentation.

PíldHora — smart pill organizer (FEMECI San Luis Potosí) | ESP32-C3 SuperMini | Team of 5 | October 2026

- Helped develop an ESP32-C3-based pill organizer that notifies a web page and triggers an audible alert until the user confirms with a button press.

StudyFitness — educational health and exercise app | Java Swing, PostgreSQL, Supabase, JDBC | Team of 3 | May 2026

- Implemented role lookup in PostgreSQL/Supabase and session redirection for user and administrator profiles.
- Developed a maze game and answer-selection mechanics with scoring, timer and result persistence via JDBC.

Laboratory reservation web system | PHP, MySQL, Bootstrap, Google reCAPTCHA | Team of 3 | May 2026

- Designed the MySQL database schema to manage users and laboratory reservations.
- Developed authentication and booking-coordination modules, adding Google reCAPTCHA to protect access.
