PROFESSIONAL SUMMARY

I am an Information Technology Engineering student at Universidad Politécnica de San Luis Potosí with practical experience in software development, relational databases, and IT infrastructure through academic and team projects. I hold certifications in IT support, Java programming, HTML/CSS, and Microsoft Excel Expert. I am interested in expanding my technical knowledge, developing practical solutions, and strengthening my problem-solving skills through collaborative, project-based learning.

TECHNICAL SKILLS

Programming & Web Development: Java; C/C++; PHP; JavaScript; TypeScript/React; Tailwind CSS; HTML5/CSS3.

Databases & Data: SQL; MySQL; PostgreSQL; Supabase; JDBC.

IT Support & Infrastructure: Hardware and software troubleshooting; installation and configuration; Docker; Windows; Linux; SSH; virtualization.

Networking & Security: Networking fundamentals; IPv4; connectivity troubleshooting; network security fundamentals; basic vulnerability assessment.

Data & Productivity Tools: Microsoft Excel Expert (formulas, PivotTables, macros, conditional formatting); Word; PowerPoint.

SOFT SKILLS

Assertive communication – Problem solving – Teamwork – Adaptability - Proactivity

TECHNICAL PROJECTS

PíldHora — Smart Pill Organizer | Feria Mexicana de Ciencias e Ingenierías (FEMECI SLP) | ESP32-C3 SuperMini | Team of 5 | October 2026

- Contributed to hardware integration and ESP32-C3 firmware development, implementing Wi-Fi communication, audible alerts, and physical-button input handling.

AppealForge — AI-powered clinical appeals system (Impact Forge Hackathon 2026) | Team of 4 | August 2026

- Contributed to frontend development (TypeScript/React) and to the project's technical documentation.

StudyFitness — educational health and exercise app | Java Swing, PostgreSQL, Supabase, JDBC | Team of 3 | May 2026

- Implemented role lookup in PostgreSQL/Supabase and session redirection for user and administrator profiles.
- Developed a maze game and answer-selection mechanics with scoring, timer and result persistence via JDBC.

Laboratory Reservation Web System | PHP, MySQL, Bootstrap, Google reCAPTCHA | Team of 3 | Nov 2025

- Designed the MySQL database schema for user management and laboratory reservations.
- Developed the complete Coordination module, including its frontend and CRUD functionality for managing system records.
- Built the base frontend layout for the User, Teacher, and Lab Technician roles, and implemented input sanitization and Google reCAPTCHA across all four roles.

EDUCATION

Engineering in Information Technologies | Universidad Politécnica de San Luis Potosí
August 2024 – December 2028 (expected) | 5th semester | GPA: 8.73/10

SELECTED CERTIFICATIONS

Cisco Certified Support Technician IT Support (CCST) |Cisco
Microsoft Office Specialist Excel Expert (Office 2019) | Microsoft
IT Specialist Java | Certiport/Pearson VUE
IT Specialist HTML and CSS | Certiport/Pearson VUE

LANGUAGES

Languages: Spanish (native); English (intermediate).
